

DISCOUNT STATISTICS OF CLOSED-END FUNDS UPDATE FOR THE 3rd QUARTER 2014

This article will update the Highland Global study, "Discount Statistics of Closed-end Funds," (originally published in November 2005 and updated quarterly) for data relating to the third quarter of 2014. The original article with more details regarding discount statistics of closed-end funds is available at www.HighlandGlobal.com. Historic releases of our research can be accessed from our website.

All facts and data as set forth in this report were obtained from sources considered to be reliable. Morningstar's Beta Data & Barron's Closed-End Fund Data

Each quarter, Barron's Online (www.barrons.com) reports statistics on publicly-traded closed-end funds. The statistics reported include the discount (or premium) of the market price from the fund's net asset value (NAV), the 52-week average discount or premium, the fund's objective, and various return measurements, etc. Morningstar (www.morningstar.com) reports various statistics on these funds, including metrics of beta. Highland Global then calculates the discount range, average, median, and standard deviation and reports these figures based on metrics such as the total data population, beta ranges, fund objectives, etc. The following table provides the summary of the analysis of closed-end funds with discounts to NAV during the third quarter 2014.

	Discount	52 Wk Avg	Beta
	9/30/2014	Discount	
AVERAGE	9.4%	8.9%	1.31

Based on calculations by Highland Global from data obtained from www.barrons.com and www.morningstar.com

The descriptive statistics presented in the previous tables may be useful in helping the analyst determine an appropriate baseline discount from which adjustments may be made to determine the final discount applicable to the minority interest being valued. In the end, however, the analyst always must use reasoned and informed judgment in determining the appropriate baseline discount and the adjustment from that baseline to reflect the particular risk characteristics of the minority interest being valued.
